

## EXTENSIONS OF REMARKS

### NORTHERN MARIANA ISLANDS AND AMERICAN SAMOA COLLEGE ACCESS ACT

#### HON. GREGORIO KILILI CAMACHO SABLAN

OF THE NORTHERN MARIANA ISLANDS  
IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 1, 2019

Mr. SABLAN. Madam Speaker, today, I introduce the Northern Mariana Islands and American Samoa College Access Act, which would authorize tuition assistance grants to cover the difference between in-state and out-of-state tuition costs for Northern Marianas and American Samoa community college graduates seeking to attend a four-year public university.

The importance of having an educated citizenry is a bedrock principle of our nation and has been since our founding. And in today's competitive job market, a postsecondary education is increasingly becoming a critical necessity for obtaining a decent job with a decent wage.

The Northern Mariana Islands has only been part of America for forty years. We understand well that education is key to our continued growth, but the reality is that household incomes in the Northern Marianas are less than half the national median. The U.S. territory of American Samoa is in similar economic straits. Poverty and unemployment rates there are among the highest in the country.

I believe the best way to improve economic conditions in these territories is to improve the educational opportunities of our residents. Unfortunately, however, neither the Northern Marianas nor American Samoa has a four-year institution of higher education. In fact, they are the only two congressional districts in the country without a public four-year college or university. Each has an accredited community college, but academic offerings are substantially limited.

Students from these U.S. territories wanting the advantages of a four-year university in another state or territory face significant financial difficulty. Nonresident students spend an average of \$14,480 in out-of-state tuition and fees more per year than their resident peers at public four-year colleges, according to College Board. And many students in the Marianas and American Samoa wanting to attend a four-year university not only face the cost of nonresident tuition, but also the significant expense of travel. The Marianas are over 3,700 miles from the nearest state, Hawaii—a \$1,100 one-way trip by plane. American Samoa to Hawaii is over 2,500 miles, over \$800 one-way.

The bill follows the model of P.L. 106–98, the DC College Access Act, which allows students residing in the District of Columbia to apply for grants to help pay the cost of attending colleges outside D.C., but much smaller in scope and cost. It creates a program through which public four-year schools in the 50 states, D.C., and other U.S. territories may be

reimbursed for offering in-state tuition to undergraduate students from the Northern Mariana Islands and American Samoa.

The gentlelady from American Samoa, Mrs. RADEWAGEN, is an original cosponsor of the bill. I urge my colleagues to support this bipartisan legislation and help give students from the Northern Marianas and American Samoa the means needed to make their educational dreams a reality.

### HONORING ESSEX COUNTY COLLEGE'S 50TH ANNIVERSARY

#### HON. DONALD M. PAYNE, JR.

OF NEW JERSEY  
IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 1, 2019

Mr. PAYNE. Madam Speaker, I proudly honor Essex County College on the occasion of its 50th anniversary. Over the past half-century, Essex County College has helped educate and enlighten thousands of students from New Jersey and across the country.

Essex County College opened in 1968 to more than 3 thousand students. By 1970, the school needed a new campus and was relocated to what we now call University Heights in the Central Ward of Newark—across the street from my congressional district office. Essex County College has grown and expanded across the community in the decades since it opened. Today, Essex County College has more than 13 thousand students across its degree, certificate, and job training programs.

Throughout the 1970s and continuing today, Essex County College has invested in local communities. The school has opened and operated extension campuses throughout Essex County. It provides off-campus educational services like the popular Saturday Youth Programs. Essex County College helps students enter the workplace with marketable skills.

Essex County College has provided a foundation of education for generations of students. Through leadership and community investment, Essex County College is leading the way toward greater opportunity. Under President Anthony Munroe, I know that Essex County College will continue to flourish for years to come. I ask that my colleagues join me in celebrating their 50th anniversary.

### HONORING MAJOR CHRISTOPHER PETRANCOSTA

#### HON. LEE M. ZELDIN

OF NEW YORK  
IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 1, 2019

Mr. ZELDIN. Madam Speaker, today I rise to recognize Major Christopher Vincent Petrancosta of the United States Army for his extraordinary dedication to duty and service to our nation. Major Petrancosta will soon transi-

tion from his current assignment as an Army Congressional Liaison to the House of Representatives to attend Army Intermediate Level Education with follow on assignment at Fort Drum.

A native of Hot Springs, Arkansas, Chris is a third generation Army Soldier, continuing a proud family tradition of service to this nation. Chris attended the United States Military Academy at West Point and commissioned as an Infantry Officer in 2007. He has held numerous leadership and staff assignments in a variety of units, highlighted by operational and combat deployments to Haiti, Afghanistan, Iraq, Djibouti, and Niger during service with the 82nd Airborne Division and First Infantry Division. During his time in Washington, Chris earned a Masters in Policy Management from Georgetown University and worked as a Political Military Planner within the Joint Staff's Transregional Threats Coordination Cell.

In 2018, Major Petrancosta was selected to serve as a Congressional Liaison in the United States Army House Liaison Division. As the primary liaison between Members of the House of Representatives, their staffs, committees, and the Army, he provided insight and understanding of Army policies, actions, operations, and requirements. His first-hand knowledge of the military, its culture, and traditions has been a tremendous benefit to Congressional offices. This previous Christmas, I traveled with Chris to the Middle East to visit our servicemembers and better understand the region. Chris' extensive experience in the region enabled a productive visit for myself and other Members of Congress. I found him to be a thoughtful, intelligent, and dedicated Soldier in the best traditions of America's Armed Forces.

Madam Speaker, it has been a pleasure to work with Chris during his time as an Army Congressional Liaison Officer in the House of Representatives. On behalf of a grateful nation, it is my honor to recognize the selfless service and sacrifice of Major Christopher Petrancosta, his wife, Stacia, and their children, Tatum and Maryn. I wish them the very best as they continue their journey in the United States Army, and continue to dedicate their lives to the service of our nation.

### RECOGNIZING LIEUTENANT DAVID JOHN REZZO

#### HON. DONALD S. BEYER, JR.

OF VIRGINIA  
IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 1, 2019

Mr. BEYER. Madam Speaker, our brave men and women of the Armed Forces continuously make sacrifices to keep our nation strong and free. Among the ranks is Lieutenant David John Rezzo, who I want to recognize today for his eight years of service in the United States Navy.

Lieutenant Rezzo currently serves as a Requirements Officer for Undersea Networks in the Pentagon. He entered the United States

Navy in 2011 and has served in numerous assignments and deployments throughout his distinguished career.

Lieutenant Rezzo has shown not only outstanding leadership skills, but also uncommon technical prowess. Over the course of six months as a Junior Officer on the USS Charlotte, he safely supervised the entire ship watch team during surface and submerged operations and managed the maintenance of an attack submarine's mechanical systems. He also achieved certification from the United States Department of Energy to assume overall responsibility of a US Naval Nuclear Power Plant.

Since November 2016, Lieutenant Rezzo has led a major revision of the Undersea Warfare Division's strategic plan, articulating future investment areas to industry, fleet users, program offices and other stakeholders with the aim of maintaining undersea dominance. He continues to coordinate plans to transition high-end asset programs that expand reliable communications throughout the maritime domain.

Most recently, Lieutenant Rezzo was also working on facilitating a \$150 million-dollar rapid acquisition effort to expand maritime surveillance worldwide in support of a critically important Chief of Naval Operations directive.

Madam Speaker, on behalf of Virginia's Eighth Congressional District I commend my constituent, Lieutenant David John Rezzo on his years of devoted service to the United States of America and ask the House of Representatives to join me in recognizing him.

COMMEMORATING THE LIFE OF  
DR. ALEXANDER P. STONE

**HON. JERRY McNERNEY**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. McNERNEY. Madam Speaker, I ask my colleagues to join me in commemorating the life of Dr. Alexander P. Stone.

Dr. Stone was a patient teacher, a mathematical scholar and creator, and a true gentleman. Under his guidance, his students learned more than the fundamentals of calculus and how to solve differential equations on curved surfaces of arbitrary dimension—he also instilled in all of us a deep appreciation for the beauty of abstract mathematical thought.

Dr. Stone held the admiration and respect of all those around him. His breadth of knowledge was clear, and so was his determination as a mathematical mentor to make sure that his students had the instruction and personal attention they needed to excel. He never belittled anyone for asking what may have seemed like a trivial or obvious question and went out of his way to put students at ease during casual conversations as well as in high stakes exams. He celebrated with us as we made new mathematical discoveries that led to our growth and success.

Alex was also a devoted father, which was made clear during dinnertime at his home. His young son was always welcome to join the conversation, setting an example for how to teach children to be inquisitive and engaged without being disruptive.

Dr. Stone's empathy was boundless. He had a rare combination of great kindness in

addition to great knowledge. He touched the lives of all who entered his classroom, and he will be missed.

IMPORTANCE OF INTERNATIONAL  
STUDENTS AND SCHOLARS IN  
THE UNITED STATES

**HON. ELIOT L. ENGEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. ENGEL. Madam Speaker, today is National Decision Day. It is an exciting time of year for students as they commit to colleges across the United States. I rise to speak in support of the international scholars who choose to attend our American academic institutions. Their presence in the U.S. is an asset to our country's culture and economy.

While the Department of State's annual Open Doors report states that the United States is still the top location for international students, a concerning statistic shows that new international student enrollment declined by 6.6 percent during the 2017–2018 school year.

The congressional district I represent greatly benefits from international student enrollment in our local colleges and universities. In addition to their intellectual and research contributions, these students make an annual financial contribution of \$52.2 million dollars and support the creation of several hundred jobs each year. We're at risk of losing this valuable talent and the benefits they bring to the residents of New York's 16th District.

But it's not just my district that will suffer—the entire country will. Although they only make up 5.5 percent of higher education enrollment in the United States, the economic value that international students have on our economy is significant. In the 2017–2018 academic year alone, international students studying at U.S. colleges and universities contributed \$39 billion to the U.S. economy and supported over 450,000 jobs. For every seven international students enrolled, three U.S. jobs are created and supported through spending in the higher education, health insurance, and transportation sectors, among others.

International education doesn't just foster economic benefits; it advances learning and scholarship. Students want to come to the United States because they know that this country has some of the world's greatest educational opportunities. However, as a result of delays in processing student visas in recent years, many international scholars have decided to study in other countries, such as Canada and Australia, which have more welcoming policies. As a result, our country is missing out on incredible talent, and students are foregoing the opportunity to study in one of the best education systems in the world.

As the Chairman of the House Committee on Foreign Affairs, I am grateful for the work international students are doing every day to strengthen ties with countries around the world. International education develops cultural understanding and respect among different peoples.

We need to send the message that international students and scholars who want to study in the United States are welcome. I urge my colleagues to work with me in ensuring

that the United States continues to be the world's best destination for academic study.

HONORING THE 50TH ANNIVERSARY OF DISCOUNT DRUG MART

**HON. ANTHONY GONZALEZ**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. GONZALEZ of Ohio. Madam Speaker, I rise to pay tribute to an Ohio-based drug store chain, Discount Drug Mart on their 50th Anniversary. Small businesses are the heart of America. They not only create jobs and opportunities, but engineer vibrant communities to live and raise our families in.

Like many small businesses in our country, Discount Drug Mart was established after somebody took a risk and poured their heart and soul into a visionary product. In 1969, Parviz Boodjeh opened the first Discount Drug Mart in Elyria, Ohio, combining a retail store with the personal care of a Pharmacist's office. By integrating disease management and screening services with necessities and convenience items, Discount Drug Mart has influenced businesses around the globe and continues to support thousands of Ohioans today. Mr. Boodjeh's leadership and compassionate touch have helped his family expand to over 70 stores and operate in over 20 Ohio counties. Discount Drug Mart, Inc., serves as a model for the American Dream and an example of what hard work and dedication can accomplish.

I offer my sincerest congratulations to this valued business and celebrate with them for over a half-century of service to our communities.

ENCOURAGING GREATER PUBLIC-PRIVATE SECTOR COLLABORATION TO PROMOTE FINANCIAL LITERACY FOR STUDENTS AND YOUNG ADULTS

SPEECH OF

**HON. J. FRENCH HILL**

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 20, 2019*

Mr. HILL of Arkansas. Madam Speaker, I include in the RECORD this article regarding H. Res. 327 Encouraging Greater Public-Private Sector Collaboration to Promote Financial Literacy for Students and Young Adults.

[From the Democrat-Gazette, April 8, 2019]

NO MONEY TREE

(By Robert Hopkins)

At an age when children are busy playing with their new Legos or asking for Happy Meals, they're also forming early and foundational ideas about earning, saving and spending that they may carry with them throughout their lives. April is Financial Literacy Month, so it's a good time to discuss why it is important that we teach personal finance and economics to young children.

Children often develop their financial behaviors as early as 7 years of age, according to research by David Whitebread and Sue Bingham of the University of Cambridge in England. So waiting until students are in

high school to teach personal finance and economics can mean missing valuable opportunities to help them learn and shape their habits. And it leaves children, during very impressionable years, more apt to construct their understanding of the economy and personal finance from what they observe around them.

This frequently results in misunderstandings.

For example, children who see their parents get money from an ATM may not have the context to understand that a bank account is directly connected to the use of the ATM. Without that context, a child hearing, "We can't afford that this month," is likely to think, "Just go get money out of the machine!"

Similarly, children may witness an adult paying for most items with a credit card or a mobile phone payment service without recognizing this as money being spent. And often children don't connect your work with income; they may not realize that adults work and are paid for that work.

At the St. Louis Fed, we have a team of educators, researchers and specialists who are making economic education more accessible and creating fun and memorable lessons and resources for teachers, parents and consumers around the country. In the spirit of Financial Literacy Month, that team has compiled six pertinent things we must teach children:

1. People work to earn income. Be explicit when explaining to children that you work to earn money to support your family. Give them opportunities to earn as well.

2. People spend some income, save some income, and donate some income. Give the children in your life opportunities to do this—spend, save, donate.

3. Saving is a good habit. Provide incentives for your children to save, such as offering to match a percentage of what they put in their piggy banks. Encourage them to save a set amount before considering purchasing a new toy.

4. Adults can't have everything they want—children can't, either. Teach them to prioritize and make careful choices.

5. Spending and saving decisions have consequences. Allow your children to live with—and talk to them about—those consequences.

6. Banks and credit unions are safe places to save your money. Tell children about them, including that those institutions pay interest on savings.

When they were younger, I tried to share such personal tips with my children, and still do today.

We believe, based on research, that children who are taught valuable lessons about spending, saving and other personal finance topics at a young age are more likely to become adults who are more financially responsible.

Share the personal finance tips in this article with your children, grandchildren, students and the other young people in your life. Research shows it may help them grow into teenagers and adults with a better grasp on their personal finances.

SHAWN SHELTON TRIBUTE

**HON. SCOTT R. TIPTON**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. TIPTON. Madam Speaker, I rise today to honor Shawn Shelton of Pueblo, Colorado, who recently retired from the Pueblo Fire Department.

Shawn was born in 1962 in Quantico, Virginia to Doyle and Elizabeth Shelton. His father's service in the Marine Corps and the Air Force led to their family moving to various posts until they eventually settled in Pueblo in 1975. He married Mary Beth Erjavec in 1983 and they have two sons, Timothy and Joshua. Working odd-jobs as a ranch hand and a mechanic, Shawn found his career path in his early 20's after a friend's recommendation and never looked back. Shawn selflessly helped countless families in the Pueblo community by serving as a firefighter for over 30 years.

After three years on the job, Shawn was promoted as a medic, and a year later received another promotion to fire engineer. He continued to advance in the department when he was promoted again to captain and then to assistant fire chief in 2015. Shawn's dedication to faithfully serve his community and his leadership as a team member ultimately led to him becoming the chief of the Pueblo Fire Department, a position he held for the last three years of his career.

Firefighters are called to assist in some of the direst situations, yet their actions can be remembered for the lifetimes of the people they help. On one such occasion, while standing in line at a grocery store, Shawn was recognized by a woman whose baby he helped deliver nine years earlier. It's moments like that Shawn says he will miss the most.

Madam Speaker, I stand with the Pueblo Fire Department and the entire community of Pueblo in thanking Shawn for his service over the last three decades. I wish him a happy retirement and hope that he knows just how thankful we are for his remarkable career.

INTRODUCTION OF THE NO TAX SUBSIDIES FOR STADIUMS ACT

**HON. EARL BLUMENAUER**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. BLUMENAUER. Madam Speaker, today I introduced the No Tax Subsidies for Stadiums Act of 2019. This bipartisan legislation returns hundreds of millions of dollars a year to American taxpayers by disallowing the tax-exemption for municipal bonds used to finance professional sports stadiums.

For more than a century, the federal government has supported state and local infrastructure projects by excluding the interest on municipal bonds from federal income taxes. Qualified projects eligible for a tax-exemption include roads, sewers and water systems, hospitals, schools, governmental buildings, and other projects for the public good. However, a loophole in the tax code allows billionaire owners of sports franchises to use public money to construct stadiums using tax-exempt municipal bonds.

For the first half of the twentieth century, professional sports franchises privately-funded the construction of most stadiums. But beginning in 1953, when the Boston Braves moved to Milwaukee, most professional sports franchises have used public financing to construct or rehabilitate their privately-owned stadiums. Since 2000, 36 professional sports stadiums have been constructed or rehabilitated under financing provided by federal tax-exempt municipal bonds, costing taxpayers nearly \$4 billion. While professional sports teams promise state and local governments that their stadiums will produce local economic development and job creation, there is no quantifiable evidence that they provide these benefits. Public financing creates a race to the bottom where teams worth hundreds of millions, or even billions, of dollars have all the leverage to exploit city budgets for their own gain. Too often, these subsidies also create budgetary constraints that result in offsetting cuts to critical public safety and economic security programs.

I look forward to working with my colleagues in the House and Senate to pass this legislation and end the practice of subsidizing billionaires' sports franchises.

IN RECOGNITION OF KAILYN GRANT ON HER OFFER OF APPOINTMENT TO ATTEND THE UNITED STATES NAVAL ACADEMY

**HON. ROBERT E. LATTA**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. LATTA. Madam Speaker, it is my great pleasure to pay special tribute to an outstanding student from Ohio's Fifth Congressional District. I am pleased to announce that Kailyn Grant of Northwood, Ohio has been offered an appointment to the United States Naval Academy in Annapolis, Maryland.

Kailyn's offer of appointment permits her to attend the United States Naval Academy this fall with the incoming Class of 2023. Attending

one of our nation's military academies not only offers the opportunity to serve our country, but also guarantees a world-class education while undertaking one of the most challenging and rewarding experiences of their lives.

Kailyn brings a tremendous amount of leadership, service, and dedication to the incoming Class of 2023. While attending St. Ursula Academy in Toledo, Ohio, Kailyn was a member of the National Honor Society, Student Council, and Dean's List.

Throughout high school, Kailyn was involved with soccer and track. I am confident that Kailyn will carry the lessons of her student and athletic leadership to the Naval Academy.

Madam Speaker, I ask my colleagues to join me in congratulating Kailyn Grant on her offer of appointment to the United States Naval Academy. Our service academies offer the finest military training and education available. I am positive that Kailyn will excel during her career at the Naval Academy, and I ask my colleagues to join me in extending their best wishes to her as she begins her service to our Nation.

CONGRATULATING DR. REBECCA RICHARDS-KORTUM, DR. JAMES TRUCHARD AND JEFF KODOSKY, ON THEIR INDUCTION INTO THE NATIONAL INVENTOR HALL OF FAME

**HON. EDDIE BERNICE JOHNSON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Ms. JOHNSON of Texas. Madam Speaker, I rise today to congratulate Dr. Rebecca Richards-Kortum of Rice University in Houston and Dr. James Truchard and Jeff Kodosky of National Instruments in Austin for their induction into the National Inventors Hall of Fame on May 2, 2019.

Dr. Rebecca Richards-Kortum is the first woman and the youngest Rice faculty member to earn the rank of University Professor. Early in her career, as a biomedical engineering professor at the University of Texas at Austin, she learned that early screening programs for cancer were out of reach for many and began creating a low-cost imaging system to detect precancerous cells. This technology was further developed to detect oral cancer. Studies later showed that her system could improve early detection of cancer while drastically reducing costly and unnecessary biopsies. In her travels to Malawi, she witnessed an issue with under-equipped neonatal wards, and thus in 2005 after moving to Rice, Dr. Richards-Kortum cofounded the Rice 360° Institute for Global Health where she began working with students on low-cost, low-power devices to save newborn lives. Her work has improved medical care for millions of newborns and saved thousands of lives in low-income countries. Her and her team's successes to date include systems that help babies breathe and that help caregivers detect jaundice and accurately dose children's liquid medication. For this work, she was the first Houston scientist and first Houston woman to win a coveted "genius grant" from the MacArthur Foundation.

Dr. James Truchard and Jeff Kodosky, who will also be inducted into the National Inven-

tor's Hall of Fame, conceived a better method of high-end testing using computers instead of the inefficient data collection methods they employed as researchers at the University of Texas Applied Research Laboratories in the 1970s. With their colleague Bill Nowlin, they founded National Instruments to develop a concept called virtual instrumentation, where software and hardware combine to perform the functions of traditional instruments, through a product called LabVIEW. LabVIEW became the flagship product of National Instruments and is used today by engineers, scientists, academics and students around the world. Having been adopted across many industry sectors, its applications are as wide-ranging as controlling the CERN Large Hadron Collider to facilitating navigation of the FDA regulatory process. RECOGNIZING THE UNIVERSITY OF GEORGIA TIFTON CAMPUS' CENTENNIAL

**HON. AUSTIN SCOTT**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. AUSTIN SCOTT of Georgia. Madam Speaker, today I would like to recognize a century of contributions by the University of Georgia Tifton Campus to the science of agriculture, the advancement of agricultural technology, and the education of producers, students and the public to promote and protect the U.S. food supply and to help feed people in need around the world.

In August 1918, the Georgia General Assembly authorized the creation of a Georgia Coastal Plain Experiment Station. In May 1919, my hometown of Tifton was chosen as the location due in large part to the surrounding area's vital role in agriculture research, outreach, and education. Today, the Georgia Coastal Plain Experiment Station is known as the University of Georgia Tifton Campus. In its one hundred years, UGA-Tifton has fulfilled its duties to promote research and education. Through the years, UGA-Tifton scientists have developed grain varieties that helped save millions of lives from starvation in India and Africa; they have developed machinery and technology that made agriculture profitable and sustainable; they have contributed to the improvement of livestock genetics and production; they have created a body of scientific research that has helped realize a five-fold increase in peanut production per acre, bringing to life the now robust agricultural economy of the state of Georgia; and they have contributed to the development of forages and turfgrasses that continue to benefit ranchers, athletes and homeowners alike.

Just as it was in the early 1900's, UGA-Tifton continues to be a cornerstone of agri-

culture research, outreach, and education for not only South Georgia, but the state and Southeast region as a whole. The commitment to its mission and to the wellbeing of humanity over this century of service is admirable. As it celebrates this milestone, UGA-Tifton remains poised and eager to continue that legacy of excellence in the pursuit of the great discoveries that will bring economic prosperity to rural America, promote greater public health through better nutrition and a healthier environment, and prevent hunger in the world in the years to come.

On Friday, May 3, 2019, UGA-Tifton will celebrate and commemorate its impact and achievements at a showcase event on campus honoring one hundred years of commitment to the community and higher education. I congratulate the faculty, staff and greater UGA-Tifton community on their successes, thank them for their service, and look forward to seeing their continued growth and success for many more years to come.

ARAB AMERICAN HERITAGE  
MONTH**HON. J. LUIS CORREA**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. CORREA. Madam Speaker, I rise to celebrate April as National Arab American Heritage Month to recognize the tremendous contributions Arab Americans have made to our great nation. Arab Americans have been, and continue to be, an invaluable part of our American life.

Arab American Heritage Month is a time to celebrate the accomplishments of people in the United States with Middle Eastern roots as well as for the public to become informed about the history of Arab Americans in the U.S.

Arab Americans are among the most loyal and patriotic Americans and have positively impacted communities throughout America with contributions to the medical field, agriculture sector, law, business, education, the entertainment industry, politics and beyond.

While celebrating their rich cultural heritage and embracing resilient family values, strong work ethic, dedication to education, and diversity in faith and creed, Arab Americans have added strength to our democracy.

While many unfairly perceive Arab Americans as unknown or unfamiliar, Arab Americans first began to arrive on American shores in the late 1800s. About half of the estimated 3,700,000 Arab Americans living in the United States were born in the U.S., according to the 2000 U.S. Census and the Arab American Institute.

Arab Americans join all citizens in the desire to see a peaceful and diverse society, where every individual is treated equally and feels safe. Celebrating Arab American Heritage Month allows us to promote public education, awareness, and policies that are culturally competent when describing, discussing, or addressing the impacts of being Arab American in all aspects of American society.

Madam Speaker, it is my honor to represent the Arab American constituents in my district, many of whom I call friends, and to recognize the incredible contributions and heritage of Arab Americans who have helped us build a better nation.

CELEBRATING 25 YEARS OF  
CONCERNED MEN COOK**HON. JIM COSTA**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. COSTA. Madam Speaker, I rise today to honor Concerned Men Cook on their 25th Anniversary. Since its founding by former Merced County Assistant Superintendent Denard Davis, Concerned Men Cook has provided an opportunity for members of the community to break bread while raising money for scholarship funds for local schools in Merced.

As an educator deeply involved in multiple community organizations, Mr. Davis started Concerned Men Cook after participating in the Men's Cook competition in Los Angeles. Using his connections from the multiple organiza-

tions he was involved with, Mr. Davis brought together educators, businesses, and community organizations to host a competition to fundraise money for scholarships for Merced County students.

Mr. Davis was also a founding member of the Black Businessmen and Black Educators of Merced County and president of an African-American investment group that provided affordable housing to the residents of South Merced. Though he passed away in 2015, the Concerned Men Cook competition is one of many ways his legacy continues to positively impact Merced County.

Since its founding 25 years ago, Concerned Men Cook has expanded to consist of five avenues in the competition, all of which are aligned with local men from throughout the community. It is now held on every fourth Sunday of April at the Merced Civic Center and continues to be a successful fundraiser for local scholarship funds.

Madam Speaker, I ask my colleagues to join me in honoring Concerned Men Cook. It is both fitting and appropriate that we honor them as they celebrate their 25th year. I wish them the best as they continue to bring together members of the community to raise money for our students.

HONORING THE LIFE AND LEGACY  
OF ALFONSO MATANANE  
PANGELINAN**HON. MICHAEL F. Q. SAN NICOLAS**

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. SAN NICOLAS. Madam Speaker, I rise today to honor the life and legacy of Mr. Alfonso Matanane Pangelinan. Alfonso was a proud son of Guam and faithful public servant who served honorably in the United States Army. Alfonso was born on October 22, 1927 and passed away on April 17, 2019 at the age of 91.

His legacy is highlighted through the various positions he held in public office. Alfonso served as Assistant Commissioner of the village of Sinajana from 1965 to 1967 and then as Commissioner of the Village from 1968 to 1973. Alfonso was a member of the Sinajana Civic Improvement Club in the 1960s and later served as Director of the Passport Office from 1983 to 1986.

After his retirement from public office, Alfonso remained active in the community. He was an early advocate for the return of Chamorro lands and federal excess lands to their original landowners. He remained a devoted son, father, and grandfather, passing down knowledge and traditions to the generations after him. He was the son of Vicente Santos and Ana Matanane Pangelinan of Machanao and Ritidian.

Alfonso was fondly known to play the bass guitar with other notable Guam musicians, playing at weddings, fiestas, and family gatherings across the island. He had since shared his talent and love of music by teaching several of his grandchildren and great-grandchildren the art of playing the instrument.

I am deeply saddened by the passing of Alfonso Matanane Pangelinan. I join the people of Guam in celebrating his life and the legacy he leaves behind. He was a dedicated public servant who worked tirelessly to improve the quality of life in his village of Sinajana and the broader island community during and after his time in office. My prayers are with his family, loved ones, and friends as they remember their lives with Alfonso and the memories they individually shared.

I extend my condolences to his children, Evangeline P. Flores, Janet P. Leon Guerrero, Michael C. Pangelinan, Donald C. Pangelinan, and Rosalyn P. Ochoco, and his grandchildren and great-grandchildren. He will be deeply missed, and his memory will live on in the hearts of the people of Guam.

#### FORCED RELIGIOUS CONVERSIONS IN SINDH, PAKISTAN

**HON. BRAD SHERMAN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. SHERMAN. Madam Speaker, as Chair of the Congressional Caucus on Sindh and Chairman of the Asia Subcommittee in the House Foreign Affairs Committee, I have repeatedly drawn attention to the issue of forced conversions and other human rights abuses in the Sindh province of Pakistan. Today, I reiterate my concerns about the forced conversions of young Sindhi Hindu girls.

On April 29, the United States Commission on International Religious Freedom released its annual report on the world's most egregious violators of religious freedom. The report noted that religious freedom in Pakistan con-

tinued to decline in 2018. The Commission also reported that "Forced conversions of non-Muslims continued despite the passage of the Hindu Marriage Act, which recognizes Hindu family law."

While the numbers are unclear, estimates suggest that each year, several hundred or more girls and young women are abducted, forcibly married, and converted to Islam. There were at least 1,000 cases of forced conversions of Hindu and Christian girls just in Sindh Province in 2018, according to the Human Rights Commission of Pakistan. The actual number is estimated to be much larger as most cases go unreported.

Pakistan's Human Rights Commission also notes that the Sindh Child Marriage Restraint Act of 2013, intended to address the issue, has not been enforced effectively. The state's response to forced marriages has been mixed, especially because the police are insensitive and indifferent in most cases. When families report their daughters as missing, this is ignored by the police. Therefore, the abducted girls remain with their abductors, where they are often coerced into silence.

The role of some religious leaders adds to the problem. Mian Mitho, a religious leader and politician, has participated in numerous conversions of young Sindhi girls. He has close connections with the army and the Prime Minister, and this has allowed him to continue his activities.

I urge Pakistan's government to more effectively address the issue of forced abductions, forced marriages, and forced religious conversions in the Sindh province.

#### HONORING 100 YEARS OF GOODWILL-EASTER SEALS OF MINNESOTA

#### HON. BETTY McCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Ms. McCOLLUM. Madam Speaker, I rise today to honor 100 years of outstanding community service and support from Goodwill-Easter Seals of Minnesota. Since 1919, Goodwill-Easter Seals of Minnesota has empowered some of our most vulnerable neighbors by providing services and support to overcome barriers to employment and pursue lives of independence and self-reliance.

Saint Paul Goodwill Industries began in 1919 with a store in the basement of the Church of the Good Shepherd in Saint Paul. Goodwill trained workers to repair and resell donated merchandise through its retail operation. During the Great Depression, the jobs created through this model became a critical lifeline for those who had them. Goodwill also operated a home for the elderly, a Community House for workers, and a vocational training program for young persons with physical disabilities.

As the organization grew and matured, it continued supporting Minnesota's workforce, this time, at the request of the federal government. Through WWII and afterwards, Goodwill Industries opened up its much sought after vocational programs to service members returning from their deployments. Some of those who carried the physical ravages of war with them were enrolled in new training programs, and a training center was built to accommodate them. This chapter in the history of Goodwill-Easter Seals is just another example of this organization rising to the challenge and equipping people with the tools to be successful in their communities.

Because of its century of expertise and accumulated knowledge, today Goodwill-Easter Seals is a leader in policy pertaining to workforce development for individuals with disabilities and other barriers to work. Now with 50 locations around the state, Goodwill-Easter

Seals Minnesota prevents 60 million pounds of second-hand items from ending up in landfills, all while guiding an average of four people per day into workplaces of their own.

For 100 years, Goodwill-Easter Seals has provided a pillar of economic stability in communities throughout Minnesota. The Goodwill-Easter Seals' model of giving items a second life, and using the revenue to support effective job training for members of our community is one that has stood the test-of-time. The positive benefits to our community that have accumulated over the years from this approach are seemingly incalculable. Our community would be poorer and less vibrant were it not for the work and diligence of 100 years of staff and supporters who kept Goodwill-Easter Seals of Minnesota running efficiently and continuing to strive for improvement.

Madam Speaker, please join me in celebrating 100 years of Goodwill-Easter Seals of Minnesota empowering and uplifting Minnesota's communities.

The Rancho Mirage Chapter of Veterans for Peace, a veterans group dedicated to building a culture of peace in our communities, was named in his honor.

All of our veterans regardless of gender, race, religion, sexuality, or gender identity deserve our respect for courageously putting their lives on the line to protect our nation. And with this memorial, we will recognize our LGBTQ soldiers who fight every day to defend our country and protect liberty. It is our solemn duty to honor and respect their service.

I am grateful to AMVETS, Veterans for Peace, and all of the other wonderful organizations and people who made this memorial possible. On behalf of the residents of California's thirty-sixth congressional district, I thank the thousands of LGBTQ Americans who have fought and continue to fight to defend our nation. We will never forget their service.

#### IN HONOR OF THE 100TH ANNIVERSARY OF THE AMERICAN LEGION IN NEW HAMPSHIRE

#### HON. CHRIS PAPPAS

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 1, 2019*

Mr. PAPPAS. Madam Speaker, I rise today to celebrate the 100th anniversary of the American Legion Department of New Hampshire. On May 5, 1919, the American Legion of War Veterans in New Hampshire held its first meeting when a group of 47 veterans of World War I convened at the state armory in Manchester. Within that first year alone, 69 American Legion posts formed across the state—of those original posts, 41 remain active and will also be celebrating their 100th anniversary this year.

Over the last century, the American Legion in New Hampshire has remained committed to serving veterans, their families, and the state of New Hampshire. The American Legion is critical in ensuring that those who have sacrificed so much to our great nation are able to find the same sense of community and service when they return to civilian life. The sense of

camaraderie fostered at the over 100 American Legion posts in New Hampshire and among the over 17,000 members in our state is truly unparalleled.

Veterans and families who are part of the American Legion community share a common sense of service to our nation, and also forge deep bonds with their own communities. Legion posts and members are constantly giving back in myriad of ways, from sponsoring American Legion Baseball across the state, to supporting Operation Military Kids, which helps children impacted by deployment. American Legionnaires are not only active within their own communities but also on a larger scale as they advocate for the interests of veterans across our state and nation. I have had many productive conversations with Legionnaires whose knowledge, experience, and guidance have been instrumental as I advocate for the interests of our nation's veterans as a member of the House Committee on Veterans' Affairs.

On behalf of my constituents in New Hampshire's First Congressional District, I want to congratulate the American Legion Department of New Hampshire on their 100th anniversary. Once again, I thank the American Legion for their century of commitment to serving veterans, their families, and the Granite State as a whole. I look forward to continuing to work alongside them to support our nation's veterans.
